Of the Venereal or Secret D I S E A S E.

WHEN a Person has unhappily contracted *This* Dis-
temper, it commonly *First* shews it self by a Red-
ness, Heat, Inflammation, Soreness, Swelling, and
Uneasiness of the *Part* that took and received the *Infection*.

In *Some* it begins with an *unusual* kind of Itching, and as
it were a Glowing, and Throbbing of the *Part*, with little
Twitchings, Tinglings, Dartings, & Shootings in the *Passage*.

In others, Only a little Red Spot, Wheal, or Pimple will
appear on the *Part* like a Flea-Bite or Meazle, which grow-
ing *Sore*, becomes what is afterwards called a *Shancré*.

These *Symptoms* are soon followed by a Dripping of Mat-
ter from the *Passage*, which turns afterwards of a Yellow-
ish or Greenish Colour, as will appear by the Linnen.

And which Matter drying on the Orifice of the *Passage*,
Gums it up, and divides the Urine into a double Stream, and
is commonly attended with a Heat & Smarting of Urine.

These are the usual *Signs* and *Symptoms* of the Disease in
Either Sex, whilst it is in it's *FIRST* Stage, or Degree:

And which *Symptoms* are more or less *Severe*, according to
the *Degree* of *Infection* receiv'd, there being a Difference be-
tween *Burning one's Finger* with the Snuff of a *Candle*, and a
Red Hot Iron: For which Reason, Some Persons may find no
great Hurt for some *Time* after having received the Injury,
when others may be severely Pepper'd from the *Beginning*.

Whenever therefore any Person upon *Comparing* their Case
with *This* *Practical* ACCOUNT or SCHEME of the *Disease*,
shall find in Themselves any of these *Symptoms*, they ought
soon to have Recourse to some *Remedy*, and harbour no
Doubt of their Case, as too many to their *Ruin* too long do,

Who thro' an unwillingness to be in such a Pickle, (desi-
rous as most are, *to put off the Evil Day*) will hardly be perswa-
ded that their Case is what in Reality it is, or at least fancy
that it will wear off of it self, without using any thing for it:

Which vain Persuasion has been the *Ruin* of many a one,
who had they but taken the Thing in *Time*, might have been
presently Cured, Whereas by *Neglect* and *Delay*, they have
afterwards been put upon *Salivations*, and other dangerous
Mercurial Methods of *Cure*, & perhaps scarce ever *Thoroughly*
well Cured at last: And this for oftentimes only a *slight*
Injury, which might at *First* have been Easily Cured.

Whereas, the longer this Distemper is let run on unregarded,
the deeper it always Rivets it self, and the worse it grows:

It being the Property of this Disease, that when it *lies hid*,
it *lies not idle*, but will appear sooner or later, when Persons
least expect it: Which makes it not at all safe to neglect
the least apprehensions of it, but to have Recourse in time
to some Safe Remedy for a Cure: A

**A SHORT WAY AT ONCE, with the Cure of
this FIRST Degree of the Secret Disease,**

THE Symptoms of this FIRST Stage, or Degree of the Venereal Distemper being those Uneasinesses of that Outward Part of the Body that First Took, & received the Infection just now described, By consequence.

This Distemper in this its First Stage, is no more than *Ameer Local Injury, done to That ONE Part of the Body only, that First received the Infection, without any Communication at all as yet with the Blood, or other Parts. And therefore*

The readiest way to Cure it, is to Use some proper Remedy to that Part it self, to Take the Infection away from it.

Just as when a Person has got a sore Finger, or a Broken Shin, the Using of some Proper Remedy to the Place it self that is Hurt, is the *most immediate, & Best Way* to Cure it.

So that the Case being *the same* in our present Question, the *Readiest Way* to make a total Riddance of the Disease *At Once* whilst it is thus in it's First Stage, is by the Method of

A Certain Chymical CLEANSING LOTION,

Which, without taking any thing at the Mouth, or Difficulty, Uneasiness, Trouble, or Suspicion, Frees the Person from the Venereal Infection, by taking it away from the Part it self that received it, and this by only Washing the Part *With*, and *Soaking* it IN this Sovereign Lotion.

So that by this easy Remedy, Persons will be cured & well, as if no such thing had been: And this without Confinement at Home, or Hindrance from Business, or the Knowledge of others, 'tis so Easy and ready a Cure.

This being that Method of Cure for this Distemper, which Dr. Cockburn F. of the R. Society, & College of Physicians of London & Edinburgh, has writ a whole Treatise in Commendation of, Entituled, *The Symptoms, Nature, Cause, & Cure of a Gonorrhoea, the 4th Edition, Printed for G. Strahan in Cornhil. 1728.* and is well worth every other perusal.

In which Treatise the Dr speaks thus in Commendation of it.

"A Gonorrhoea is *this* Sooner, & far Better Cured by this Method, than any other Way, and the Greatest Heat of Urine is presently taken off by it, which often resists the best Medicines.

"The Safety also of this Method is greater than can be in any other: And therefore, as there is no Competition between

this Method & others, our Endeavour ought ALL to be employ'd about it; the very worst Effects of a Gonorrhoea, being Cured

by it in the Shortest Time, without any Pain, & with the greatest Certainty. Thus Dr Cockburn. But Practice says Dr.

Quincy, does not fall so much into this Method by A Lotion, as it justly deserves, for fear of making Too Short, and Too Easy

Cures. Dispens. Par. 4. 2. A 2 of

Of the Easy and Ready Use of this Lotion:

IF the Part it self that took the Infection is *Sore, Hot, Swell'd, Red,* and *Inflam'd*, with any Smarting of *Urine*, or Dripping, or any Soreness at the End of it, &c.

Or if it has any little Blisters, or Pimples upon it,—Then Pour out into a Tea Cup a Spoonful or two of this Lotion, & put the Part into the Cup, and *Hold it in it*, and let the Fore-skin and the End of it *Lie* and *Soak* a Minute or a in it, to SOAK the Venereal Infection OUT of it, and thereby put an immediate STOP to the Infection's ever getting farther into the Body, and *Poxing* the Patient :

And then WASH the whole Part it self with the Lotion, Liquor, according to the Directions that are with the Lotion.

This WASHING and *soaking* thus the Part Cures it, & immediately takes away the Running, & Heat of Urine.

So that Persons will find such a comfortable sudden Change and Alteration in themselves, by being rendered so soon Easy by this Lotion, altho before in the most uneasy Condition imaginable, that they will be surpris'd at it.

Thus, the Use of this Lotion being with the utmost Privacy, and SOON DONE, it can never betray a Person's Condition, if they will but be true to themselves :

Whereas other Methods are troublesome, keep the Cure long in Hand, & betrays the Person into the Bargain.

The ready, and Easy Use then of this most excellent Lotion, is equally Recommended for a general Good,

A S W E L L

To all those who are already under Cure
in the Hands of any Physician or
Surgeon whatsoever.

A S

To those who are in Present Want of a Cure.

For, As for those who are taking any Physick from any Physician or Surgeon for the *Veneral Distemper*, if (Besides their taking any Physick at the Mouth, from any Doctor whatsoever) they do but use *This Lotion*, their Cure will be so surprisingly *Shortned*, as to be Performed in (very often) less than *A Quarter of the Time* that it might otherwise.

So that let them take whatever Physick ANY Physician or Surgeon may give them, if they do but use this Lotion whilst they take their other Physick, (and which can never interfere with any Physick they can take from *Any One*, this Lotion not being to be taken at all Inwardly) they will be Cured in (very often) Less than A QUARTER OF THE TIME, that they might otherwise be, by only their other Physick alone, without this Lotion. If

If therefore any Person compares the Fatigue of a long tedious Cure without this Lotion, with the Expedition, Ease & Privacy with which this Lotion performs a Cure;

If they compare Pain to present Ease ; A Cure in a Day or Two, to One Drill'd out to several Weeks ; Hazard of Reputation, to a Preservation of it ; And Risque of Constitution to an entire Safety of it, they must lay aside all Reason, if they do not out of Hand make Use of it.

This most Incomparable LOTION, and Easy Cure AT ONCE, of this most wretched Distemper, is Sealed up with Directions in *English* and *French*, Price 7 s. 6 d.

See more of this most admirable easy Method of Cure of the *Venerable Distemper*, of Dr. Cockburn's. without taking Physick at the Mouth, in the SECOND PART to this Scheme, which is to be had *Gratis* Only at these TWO following Places, *viz* Up One Pair of Stairs at the *Aaodyne Necklace* without *Temple-Bar*. And R. Bradshaw's, & no where else.

And for those who cannot **FETCH** these things, Every Reader is to take Notice.-That

BY Reason of the very great Success of, & Demand that there is from all Parts for this Famous LOTION, and the other Remedies in this Scheme Any Person who may live any where in, or about London, Or some Distance from London, may the more Easily come by any of them,

A SERVANT on Purpose for TRAVELLING is employed to Carry any of them Privately to whoever WRITES for them, either for themselves, or for some Acquaintance.

If they send but the least Note by the *Peny Post* Directed Thus,

TO Mr. BRADSHAW at the *Golden Key*, near *Russel-Street-End*, *St. Giles's* in the Fields, LONDON

So that as soon as ever the *Post-Man* brings your Letter,

You shall Presently have what you Write for BROUGHT (*Carriage Free*) to you, and with the utmost Privacy, if you live any where not exceeding 12 Miles out of London, by this Servant, who is employ'd on purpose to go with these things,

And your Charge of *Postage* will be Repaid you again,

Or what you Write for, shall be Left, till called for (if you like it so better) at any House Privately for you, under any Feigned Name, as you shall order in your Letter.

This SERVANT having all these Remedies ready always by him at his House the *Golden Key* as above, That

Upon the Receipt of any Letter, he may immediately DISPATCH AWAY to any Person what shall be Writ for.

And thus Persons need be at no farther Trouble, but only to direct a Note as above, and what they Write for, will be thus BROUGHT to them.

A L S O,

For the immediate Conveniency of Persons FAR OFF any where in the Country.

Upon the Receipt of any Letter to him by the General Post from any County of England, Wales, Scotland, Ireland, &c.

He will deliver to any Carrier, or Stage-Coachman:

Or to any Master of a Ship, Sloop, Hoy, or other Vessel,

Or to any other Person, whatever you write to him for, so PRIVATELY Put up, that no One can know what it is:

So that by thus Writing by the POST to this Person, any one in the Country FAR FROM LONDON, may with Ease, Expedition, & Privacy come by any of these Things.

And so Cure themselves of the Venereal Distemper, in the private Family where they live in the Country, without making your Case known to others.

Again.—Many a Person living out of London, who may be in PRESENT WANT of either this Lotion, or the following specificke, &c. and for want of a Present Convenience of coming by them, may say to themselves, that after a while I shall be in London, and Then I'll have it, &c.

But because each Day's Delay makes their Distemper only become worse, Therefore Here is an Easy and Convenient Way Put into Every ones Hands of soon coming by any of these Remedies, and in as Private a manner as if they Fetch it themselves, and this by only Writing by the Penny-Post as above ordered, & what they Write for will be soon BROUGHT to them, or Left any where for them.

Or if they live any where FAR OFF in the Country, if they do but Write the least Note by the General Post, What they write for, shall be immediately Packt up in a little Box, and sent to them by any Carrier, or Stage Coach Man they shall appoint in their Letter, Carriage Free.

THE Reason for this Notice of Writing by the POST is, Because Many Persons in the Out-Parts of London, or some Miles off London in Middlesex, Kent, Essex, or Surrey,

Either have not the Convenience of Sending for, Or else DON'T CARE to Fetch any of the Things in this Book themselves, altho they may live but a STREET or two off: Therefore, Since sending a Note by the POST is so Easy to every Body,

This Person is appointed on Purpose thus to SUPPLY Persons.

And is found to be so very Easy and convenient a Way of Persons coming by any of these things, that it is so more and more liked, that LETTERS increase by the Post to the Author's SERVANT the above mentioned R. Bradburn, to have of these things BROUGHT thus Privately to them, being much pleased with so Easy a Way of coming by them.

The

The Cure of the SECOND Degree of the Disease.

IF the Distemper is *Let Alone* without *Using Means* for a Cure in it's *First Stage* or Degree, Then *Other Symptoms* will come on Thick and Fast upon the Person: The *Part* grows Sorer, and when the Person is warm in Bed, is violently drawn down with a *Cordée*.

In many Persons, a Foul Matter will gather underneath the Fore-skin, which Fretting the Part, makes it Sore.

And the Dripping of Matter, and Heat only and Smarting of *Urine*, is now a *Running*, and a *Scalding*.

Some Persons will have a Swelling in their Groin, Or one or both *Testicles* will be sore, hard, & swell'd. — Now

To Cure (or prevent if coming on) these Symptoms, which are the proper Signs of the 2d Stage of the Distemper,

Besides the foregoing *Lotion*, there must be an Addition to it of the famous *Specifick Remedy*, to Clear the Body of the *Veneréal Infection*, which the Great Dr. Chamberlen so esteemed and Recommended to those that enquired of him about it, as he did, which was on the following occasion.

When this *Specifick Remedy* was First Published in London in the Year 1713. Numbers of Gentlemen and others Bought of it, & who finding themselves Cured by it, recommended it to their Acquaintance under the same unhappy Circumstances, and who experiencing the same happy effect from it, recommended it also to others:

This coming to the Ears of Dr. Chamberlen, moved his Curiosity to Buy the *Remedy*, which he did by sending his Servant with a *Guinea* for a *Double Pot* of it along with the *Lotion*, &c.

And having at that time some deplorable *Veneréal Patients*, he was pleased to try the *Remedy* upon them, the Success of which made the Dr. send his Servant for more of it, and withal writ to the Author to acquaint him with it.

The Author upon this waited on the Dr. and communicated to him the *Prescription* of the *Remedy*, upon which the Doctor was pleased to fall into the Opinion, that the true *Specifick* for this Distemper, was now happily Hit upon.

And therefore having thus experienced in his Practice this Wonderful *Specifick Remedy*, & the *Elixir* for Broken Constitutions, &c. He sent Himself his own Servant to have this following Approbation publicly Advertised.

THIS true *Specifick Remedy*, the *Constitution Elixir*, &c. belonging to the *Practical Scheme*, I Recommend for the *Secret Disease*, &c. Others I disown as Counterfeits.

From my House in Suffolk-street.

P. Chamberlen. M. D.

But to return to our Subject of this *Specifick Remedy*: It carries out off *Morruy*, and thereby Relieves those who have been in bad Hands in former Cures. A 4 In

It carries off also in their Infancy, those Venereal Swellings which otherwise would break, called Buboës, & which if once Broke, will go near to betray your Condition.

Whereas this Remedy saves this Trouble, & sets Things to rights again, making the Patient easy, & well. So that

The Great convenience of this *Specifick*, and *Lotion* is, that Persons may Cure themselves with them alone by themselves, without making their Case known to others.

And, If your Case be the 2^d or 3^d Degree of the Distemper, & you have any of those Sores on the Part, called *Shancres*, which prove Ugly things, if not remedied in time:

Or if the Foreskin is Sore, swell'd, and cant be moved.

Or if you have a *Cordée*, Then for any of these Symptoms,

Besides the taking of any Physick at the Mouth, from any Doctor whatsoever, Wash the *Shancres* & sore Places with the foregoing Lotion, & Soak the End of the Part in a Tea-Cup full of it, to Soak the Infection out of the *Shancres*, & take the *Cordée* away, and to Cure any Redness or Soreness on the Part.

This Great SPECIFICK Remedy is Sealed up with Directions in *English & French*, Price Half a Guinea, containing what is generally sufficient in most Cases.

Or a Quantity for Five Shillings may also be had.

Note. To any Customer that desires it, is GIVEN GRATIS The Treatise of the Use and Abuse of the Marriage Bed, and the ill Consequences of the Vice of Self-Defilement, &c.

And if any one would inform themselves farther concerning their Condition, at Only the TWO following Places, viz.

Up One Pair of Stairs, at the *Anodyne Necklace* against *Deureux-Court* between *Temple-Bar* & *St. Clement's Church*.

And by (the Author's SERVANT) R. Bradshaw at His House the *Golden Key* as in the 5th Page, is Given Gratis.

A SECOND PART to this SCHEME

Being a Continuation of these Subjects, viz.

OF THE SECRET DISEASE, and A GLEET:

which is a Book calculated farther to inform all Venereal Patients & to resolve their Doubts about their Condition.

O R,

W Henever the Author's SERVANT, (the abovementioned R. Bradshaw) Brings any thing in this Scheme to any one that Writes to him as above directed, &c.

He will at the same time (if they desire it) Bring them one of these SECOND PARTS to this Scheme along with him, and also will Bring them one of the Treatises of the Use and Abuse of the Marriage Bed, and of Self-Defilement, mentioned above in the 5th Page, if they desire it. The

The Cure of the 3d and Last Degree of the Distemper.

WHat has been HITHERTO said in this Scheme, regards the Venereal Distemper in its *First* and *Second* Stages or Degrees, commonly called *A Clap*, before it comes to that miserable Degree called the *Pox*.

But if thro Neglect and Delay in getting a Cure of the Distemper, whilst it was in its *First* and *Second* Degrees,

Or from having been mismanaged in any former Cure, the Infection has got into the BLOOD, & which is known by various Pains, Aches, *Spots*, *Scabs*, *Blotches*, & breakings out about the Body, with restless uneasy Nights, &c. which are shrew'd Symptoms of the *THIRD & LAST* Degree of the Disease, & that it approaches towards the *Pox*:—Then.

Besides the foregoing Lotion & Specifick Remedy, which are for the *First* and *Second* Degrees of the Distemper,

The Person shou'd take a certain little Grain of a particular Blood-Cleansing Powder, to take the Pocky Infection immediately out of the Blood, that Then the Specifick may Carry it off.

This little Grain of Powder is no more to be taken, than will lie on a Silver Penny, and has nothing at all of any Mercury in it, nor no more Taste than a Crum of Bread.

And is such a Cure of this Distemper, that it has been surprizing to see Persons almost Ruined with it, looking like Death, with Pains & Breakings-out in their Body, & even their Nose in Danger, cured so easily by this Method.

This Blood-Cleansing Grain of Powder may be had separate by it self, Price 3s. 6d. Sealed up with its own Directions.

But as The above-mentioned Lotion, with a Half a Guinea Pot of the foregoing Specifick Remedy, and this Powder, make up the Whole Cure of this Disease, when very BAD:

Therefore they are also all Sealed up in One Pocket Parcel together, With this Title Pasted on the Parcel,

The Whole CURE together

O F T H E

S E C R E T D I S E A S E,

With DIRECTIONS in ENGLISH and FRENCH.

Price A GUINEA.

And are thus commodiously Sealed up in one little Pocket Parcel together, that the Whole Cure may be Privately bought, & carried away in a Persons Pocket to any (even remote) place, There to Cure themselves Privately with.

If therefore we compare the Privacy, and Ease of this Guinea Cure, to the Trouble in being Cured by the Common Methods, the Perfection of This will easily appear before the Blind Infatuation of others.

*An Application of what has been hitherto said, to
Person's Cases in particular.*

ALL Persons who have the Venereal Distemper upon them, have it in some ONE of the Three foregoing Stages or Degrees: And in which of them it is, any one may easily know, by seeing whether the Uneasinesses they complain of, be the same with those which are above described as belonging to the FIRST, SECOND, or THIRD Stages or Degrees of the Distemper. — So that

If they find that their Case is only the First Stage, and which is usually called a *Simple Gonorrhœa*, or *Clap*, then they are to Use the abovementioned Lotion to be Cured, without their taking any thing in at the Mouth.

But if their Case is the Second Degree of the Disease, which altho called also a *Clap*, yet it is with the Addition of the Word *Virulent* to it, *A Virulent Clap* being where the Running is pretty much in Quantity, & become foul, & discoloured, and the Urine scalds & smart MUCH as it comes away, & is also accompanied with the other Symptoms above described as belonging to the Second Stage: — Then in this Case,

Besides a Person's Using the Lotion, they ought for a Speedy Cure, to take a Dose or two of the *Specifick Remedy* for the Reasons above given: These two Remedies being for the Cure of the Distemper in its SECOND Stage.

But if the Person's Case be the 3d Stage, then besides the Use of the Lotion & *Specifick Remedy*, they ought to take the little Grain of *Blood-Cleansing Powder* abovementioned, which is on Purpose to take the Pocky Infection out of the Blood.

And again, if Persons, whose Case is only the Second Stage or Degree of the Disease, are desirous to be more certain in thoroughly Cleansing out of their Bodies the Infection of the Distemper, if, besides the Lotion, and *Specifick Remedy*, they use also this little Grain of *Blood-Cleansing Powder* just now mentioned, their Cure would be still much more expeditious. And therefore for this Reason it is, that

Along with the Lotion, & *Specifick Remedy*, the said Grain of Powder has always been put up in one Parcel together at a Guinea Price, from the first successful Publication in London of this Great Venereal Specifick in the Year 1713.

Being a far Cheaper Cure thus for a Guinea, than by troublesome Salivations, or tedious Courses of Physick.

AND by sending to the Author's SERVANT (th abovementioned R. Bradshaw) to have any of the Things either Brought, or Sent to any Person, they will come to them as Safely, & Privately, as if they fetch 'em themselves.

NOTE. The POOR, (whose Circumstances will be regarded) are to apply Up One Pair of Stairs, at the Andyne Necklace without TEMPLE-BAR.

AND as for Persons of either Sex, harass'd with
Any Recent, or Old GLEET, &c.

Altho they may have met with the most Unhappy Dis-
appointments in their Cure, the readiest thing after all to
take their GLEET away, is a Peculiar Chymical

Healing and Strengthening LOTION,

Of Dr. Cockburn's Recommendation also in his Treatise
of a *Gonorrhoea* abovementioned; and which Lotion Cures a
Gleet, after most other Means used to no Effect, & this with-
out taking any thing at the Mouth, or any Uneasiness.

And therefore, the Easy Use of this great Strengthening
Lotion, is equally Recommended for a general Good,

A S W E L L

To all those who are already under the Hands
of any Physician or Surgeon whatsoever,
for the Cure of Either

Any Recent or Old GLEET, or any Dripping
or Owzing after any Venereal Cure,

A S

To those who are in Present Want of a Cure.

For, As for those who are taking any Physick from any
Physician or Surgeon for any GLEET, if (Besides their tak-
ing any Physick at the Mouth, from any Doctor whatso-
ever) they do but use *This Lotion*, the Cure of their Gleet will
be so surprisingly *Shortned*, as to be Perform'd in (*very often*)
less than *A Quarter of the Time* that it might otherwise.

So that let them take whatever Physick ANY Physician
or Surgeon may give them, if they do but use this Lotion
whilst they take their other Physick, (and which can never
interfere with any Physick they can take from *Any One*, this
Lotion not being to be taken at all Inwardly) they will be
rid of their GLEET in (*very often*) *Less than A QUAR-*
TER OF THE TIME, that they might otherwise be, by
using their other Physick alone, without this *Lotion*.

This Great Strengthening Lotion is Sealed up with its Di-
rections in *English & French*, Price 7 s. 6 d.

But where a Gleet or other Weakness is of Long Date,

Or where any Relicks of a former *Venereal Infection* are
expected to be still in the Body, Then besides the Use of
This Lotion, the Person should take a peculiar

URETICK Cleansing and Strengthening Elixir,

A Medicine of rare Efficacy to Cleanse and bring away
any Relicks of any former *Infection*. Now

AN

Now such Relicks are commonly known and discoverable by a foul Urine, of a strong Smell, with Variety of, as it were, *Threads, Films, Skins and Hairs* flying about in it, with a *Greasish* kind of *Scum* at the Top, and a *Settling* at the Bottom, with a *Sharpness, Pain, Heat, or Stoppage* in the *Making* it, and too frequent *Provocations* to it, and is often accompanied with a *Pain and Weakness* in the *Back, and Loins*, and a kind of *Weariness* over the whole *Body*.

This Great DIURETICK Cleanser Cures these Disorders by bringing away by Free URINE, not only the foul Relicks of a former *Veneral Infection*, but also *Slime* or little gritty *Stones, Gravel, Sand*, or other *Foulnesses* that hinder a free making of *Water*, it bringing the Urine FREELY & Easily away, tho before the Person could only make it with difficulty and by *Drops*, and with a singular efficacy strengthens the weakned Parts. Which renders it a Medicine of such uncommon Benefit, as to restore again weakned & spoiled Nature, beyond what the Person could ever expect.

Being a peculiar Thing to repair, recruit and restore Nature again, where either any *Dripping* or GLEET drains and wastes it, and to take such a Gleet QUITE AWAY:

Or where Persons have weakned & spoiled themselves by *Self-Defilements*, & unnaturally forced seminal *Emissions*, &c. this great Medicine is a Restorer, and Replenisher again of Nature, where it has been so squandered away.

So that this Sovereign Cleansing and Strengthening Elixir is of great Efficacy for GLEETS & Weaknesses in Either Sex, whether occasioned by the *Secret Disease*, or inordinat *Coition*, or *Self-Abuses* and *Defilements*, or from *Falls, Blows, Strains, Hard Labours, Miscarriages*, or other Causes.

Also Disorders of the Urine, as *Dribblings* of it hot or smarting, or foul, slimy, or thready, or the over heaty or too frequent *Occassions* to make it, and its Smelling, as it often does, strong, or stinking, are likewise speedily cured by it, and the Water made to come awfully easy, full stream'd, sound, free, and clear.

This DIURETICK Cleansing & Strengthening Elixir is Seal'd up with Directions in *English and French* in Bottles of *Guinea: Half a Guinea: Or 5 s. Price.*

O R,

Requisite Quantities for a Cure of a Severe GLEET both Lotion and Elixir are put up together by themselves with Directions at A GUINEA Price in One Parcel, Sealed up, for the Convenience of those who would have the whole Cure together.

of Another more Unhappy State proceeding from this Disease, different from it's THREE Stages or Degrees.

BESIDES the Three above mentioned Degrees of the Venereal Distemper, There is yet Another much more Unhappy State, in which a Great Part of Mankind unfortunately find themselves which is what is commonly called A BROKEN CONSTITUTION, or Spoiled Habit of Body, from Prejudices receiv'd from Former Cures, Salivations, Mercurial Medicines, &c.

The Reason of which has been, because after the Cure, the MERCURY ought to have been (but was not) well carried off, and so has lain Lurking in the Body, & has rivetted it self in the very Bones of the poor ruined Patient.

So that after the Cure is over, there frequently remains several pernicious Effects and Symptoms of the Disease, or else some Fatal Relicks of the Mercury (many times the worse Evil of the Two) all which are sufficiently known by unusual Pains in the Head, & about the Body, Weakness, & Tremblings in the Joints, Weariness and Numbness of the Limbs, Fiddiness in the Head, Heat in the Palms of the Hands, Weakness in the Back, Reins & Loins, Lowness of the Spirits, &c.

With several other such Disorders, as too many daily experience, who thereby from Strong, Healthy Persons, too often become of Infirm, Broken, miserable weak Constitutions.

Now to Remedy these Evils, the usual Method is to put persons under tedious Courses of Physick, with Diet-Drinks, &c.

And if no Other Means would do, these Courses of Physick must be undergone. But Another much more Easy Way now found out to Carry off the Relicks of former Mercurial Medicines, & to Cure these Disorders, viz by a peculiar Elixir, instituted to supply in a much more Eminent Degree a Few Drops, the Stead of (frequently to be repeated) nauseous Draughts of Diet-Drinks, or other Medicines.

By the Person's Taking only a few Drops of this Elixir, instead of long Diet Drinks, and Courses of Physick:

Now which of these Two Doses, viz. Either only a Few Drops of such a Compendious Elixir to be taken At Once : Or to take large nauseous Draughts, of Diet-Drinks, will be most acceptable to Persons whose Condition requires them either to take Physick, or be ruined, needs no great resight to determine.— So that *Utrum horum Major accipe.*

From all which appears the great Convenience in the happy Discovery of such a short CUT and Abridgment of Diet-drinks, and Courses of Physick, by such an Easy Elixir.

This Great REPARATIVE Constitution Elixir is Sealed with Directions in English & French in Bottles of 1000 : Or Half a Guinea : Or 5 s. Price. Of
